Electricals and Electronics (LLP)

About Us

Rohaam Electricals and electronics LLP is a team of Electrical and Electronics Engineers with over fifteen years of combined experience. We have been in business for over eight years and provided services through our Sister Company M/s HR engineering Solutions by Electrical Subcontracting . and we are also a leading trader, assembler, supplier, stockist of Electricals and Electronics Products and deals in Electrical and Electronics (Medical Equipment) Sales and Services.

We are specialised in testing transformers, circuit breakers, switchgear, protective relays etc...

We are experts In Electrical Testing, Maintenance, and Medical Equipment Products sales and Services . Electrical maintenance and cleaning is essential to ensure continuous operation of your equipment. we services electrical Transformers , switchgear, circuit breakers, motor etc....

Every manner what so ever in all kinds of heavy electrical fittings and electronics equipment's in India alongwith repair and revampment services. At Rohaan Electricals and Electronics our focus is always on offering the best services in class A one quality products for our customers

Strong Background

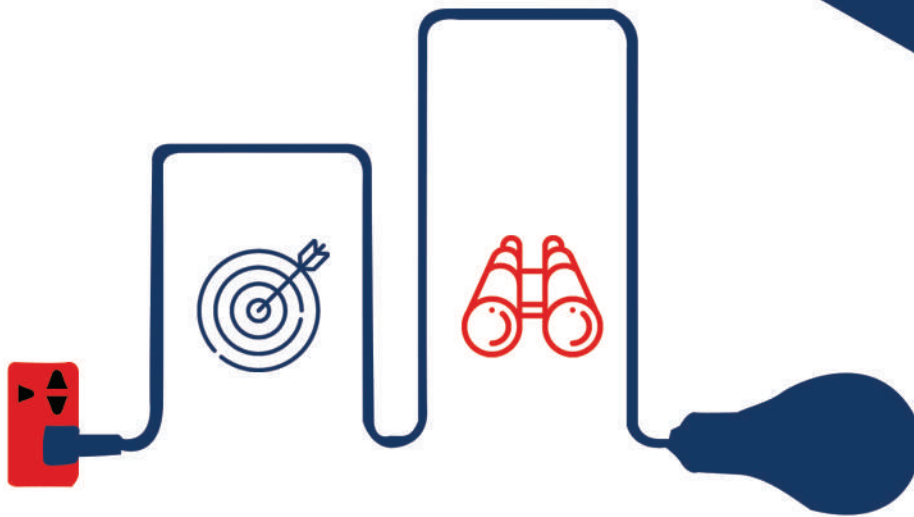

The Company has been founded in 2020 and backed by its founder who is holding an engineering degree in electricals and have almost fifteen years of experience in Over all Electrical field .he has worked in Crompton Greaves Ltd Mumbai where he has hand skilled experience of Impulse Voltage Test, Partial Discharge Test, Power frequency Test, SFRA Test, Tan Delta Test ,Paper Insulation Test, Transformer Oil Testing BDV etc..... he has also worked in Power Distribution Company namely Reliance energy ltd Mumbai where he has work for HT ,LT, Meter Installation, Street Light ,Cable, SCADA, Departments.... Other than this he has worked As Transformer Testing Engineer up to 15 MVA ,132 KV Class where he has hand skill Experience of All Routine Test of Power and Distribution Transformer like Load loss Test, No Load Loss test , Winding Resistance Test, Insulation resistance test, DVDF Test, heat run Test, High Volage Test or Withstand Test, Magnetic balance Test , Voltage ratio Test, Vector group test, Transformer Oil filtration , BDV Test of Transformer Oil etc..

All our products are of the highest quality and bear the accuracy marks as laid down by the Indian regulatory authorities.

The Company is Over all dealing in Electrical and Electronic (Medical Equipment) Sales and Services. Which are Described in details in this portfolio .

Electrical Services of Power and Distribution Transformer, Switchgear, relay etc... and also doing Electrical Products Trading , all kinds of electrical sub contracting work since more than a eight years and is considered as one of the most trustworthy and valuable enterprise in this profile.

Mission

We aspire to play a larger role for the community and the nation as a whole by providing world class and environment sustainable products and services. To upscale the grinding industry with newly designed hi tech products that are environment sustainable.

Vision

The organisation believe that electrical and electronic industry has a much larger responsibility towards building an energy efficient nation and we vision at discovering new equipment with least negative impact on present surroundings.

Our Values

We work with the respective strategic values

Transparency

The organisation inhibits a culture of working with complete transparency and coordination at all levels.

Quality

Quality can never be compromised in this area.

Innovation

We always welcome people from diverse culture fostering innovation.

// Our Team

Rohaans electricals have built an environment with unlimited opportunities for its team members and termed our human capital as the key to our success.

We have experienced team of engineers for testing all the products in respect of safety concerns and quality parameters.

The team take all the necessary actions and reporting within the reporting time for any discrepancies in order to ensure quality services to our customers.

The team works in close coordination with each other and is trained at regular intervals for recent trends.

Our Products and Services

Quality of the products we deliver is the topmost concern in our organisation. All the products are tested at monitored for any discrepancies at the special labs maintained at the company's office.

The Company is Over all dealing in Electrical and Electronic (Medical equipment) Sales and Services. Which are categorised in four Section which are described below

Electrical Services

- Distribution Transformer Installation
- HT Cable laying up to 33 KV
- Transformer Oil Filtration
- RMU Installation
- CT/PT Installation for Metring
- Energy Meter Installation
- Underground Cable Fault
- Relay Testing
- 132 KV CT/ PT Installation
- System Design & Studies
- Electrical Wiring
- Solar Power
- Meter Installation
- CCTV
- Installation, testing & Commissioning of Substation Equipment
- All types of Electrical maintenance & Troubleshooting

Electrical Products (Trading)

- AC/DC Ammeter
- AC/ DC Voltmeter
- Multifunction Meter
- LT CT / PT for metering (tape Wound and Resin Cast)
- Switches
- MCB/ MCCB / ACB
- CCTV
- Transformer Oil
- PVC Pipe
- Electrical Cable
- Earthing Plate
- Cable Tray

Medical Equipment Products (Trading)

- Pulse Oximeter
- Dial BP Apparatus
- Glucometers & Strips
- Needle Cutter
- Bipap
- Syringe Pumps
- Digital BP Apparatus
- Aneroid BP Apparatus
- Digital Weigh Scales
- Stethoscope
- OT Light
- Blood Bank Equipment
- Mercury BP Apparatus
- Nebulizer
- Needle Burner
- ECG Machine
- OT Tables

Electronic (Medical Equipment) Services

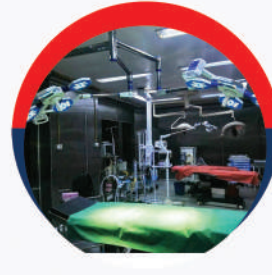

Medical & Hospital Equipment Services
(Subject to Spares Availability)
